

Our COVID Response

During this time of pandemic, we have made a few changes to help our guests feel safe and our staff manage additional cleaning procedures recommended by governing agencies. We have always had very high standards for cleaning but are being extra diligent to check all the boxes and make sure your stay is as safe and comfortable as possible.

The biggest change that will be noticeable to our guests is that we have temporarily removed all throw pillows from beds and couches as well as most of our quilts and coverlets. This will make it easier to wash all bedding between guests each time. We are also trying to stock towels minimally based on your guest count to reduce the number of unused towels we have to rewash. If you need additional blankets or towels during your stay, please send us a text or give us a call at (406) 730-8786, and we are happy to bring you some.

As always, each check-in is contactless. You will receive directions to your rental and a code for the lockbox located next to the door so you can let yourself in at any time after the check-in time specified. If you have any questions or issues with your check in, please give us a call.

We appreciate your patience with us as we navigate this new world of hospitality. We also appreciate your cleanliness which will help us get each cabin cleaned and sanitized before the next guest arrives. We want your stay to be perfect, so please let us know if you need anything!
